

New York State Academy of Nutrition and Dietetics  
Award Winners – Jack Bellick 2001-2017

Jack Bellick was involved at the district and state level of the dietetic association often serving in the capacity of Treasurer, Delegate to the House and Parliamentarian. During his career as Director of Nutrition Science at the New York Department of Mental Hygiene, he served as Treasurer of the American Dietetic Association. His contributions were recognized in 1988 when he received the Academy's Medallion Award. In 1995 his work was further recognized when he was given the Marjorie Hulszier Copher Award. It is of note that he was the first male recipient of this Academy award that was initially given in 1945.

Jack would listen to the concerns of members and then quietly encourage them to "get involved". To support involving a student or active member that had been credentialed in the past 3 years and had consistently participated in district or state activities, he created the Jack Bellick Award. The award allows a young member to attend the Annual Meeting Event and experience the NYSAND Board of Directors and Coordinating Cabinet Meeting with their expenses covered.

The list of recipients that have received the Jack Bellick award may be incomplete. If you have information that would add to this data, please contact the NYSAND Central Office and provide updated information.
